Amigo Bike Michiana

MCC BIKE MICHIANA
DONATION FORM
SEPTEMBER 12 – 14, 2025

The Bike Michiana project this year will raise money for MCC's water projects in India. These projects harvest water from mountain streams bringing water into villages so that women do not need to spend 3 to 5 hours daily collecting water for household chores. The water has also helped irrigate farms and gardens. Les Gustafson-Zook and Claude Schrock visited three villages that have participated in these water projects this past year and will share their stories at the Saturday evening presentation at 7pm. Please RSVP to Cheryl@amigocentre.org if you would like to attend the presentation.
